INTERNSHIP EXPERIENCE

Web Editor Intern: NASIC AI Support Nagoya, Japan

June 2019-August 2019

- Researched and redesigned the company's BaitoNet, a website used by students in Japan to find safe and part-time employment, to be more appealing for international students.

WORK EXPERIENCE

Supplemental Instruction Leader: St. Olaf Academic Support Center

February 2018-May 2019

- Facilitated supplemental instruction sessions for students in Computer Science to help them retain and practice course materials, while answering any questions that come up.
- Communicated with the Professor regarding students' questions and concerns.

Helpdesk Representative: St. Olaf IT Helpdesk

August 2016-February 2018

- Assessed technological complications and devise methods of troubleshooting for faculty, staff, and students on a wide range of software and equipment-related issues.
- Communicated with the Desktop team if the client's issue required escalation.

PROGRAMMING PROJECTS

ChinChat:

- A Chat programmed in Python. This program was developed for an intro level computer science course. It utilizes sockets, threads, and client/server architecture.

LangLearn:

- A flashcard Language Learning Application programmed in C++. This program was developed for an intermediate level computer science course. It utilized C-style strings, and SFML to provide audio, and recording. Currently being developed in JavaScript and converted to a web application.

RESEARCH EXPERIENCE

Collaborative Undergraduate Research and Inquiry: St. Olaf College, Northfield, MN

June-August 2018

- Worked alongside Professor Richard Brown, researching and designing a curriculum applying Raspberry Pi and hands on learning in a core Computer Science course.

EXTRACURRICULAR ACTIVITIES

Scholar: St. Olaf TRIO McNair Scholars Program

January 2018-Present

- Graduate school preparatory program for first-generation and underrepresented students
- Participate in monthly workshops and summer internship/research opportunities
